Confirmation

Dear Sir or Madam,

As one of the leading distributors for film equipment, we have been working closely with many notable German and international film production companies since 1974.

We have provided professional equipment for the film business. Along with flexibility, mobility and mutual exchange it is of the utmost importance for us to provide the highest level of support possible. The most recent example of the above is in the field of HD-cinematography.

Due to the evident thriving partnership with our customers we are more often than not asked to recommend competent technical personnel. We frequently recommend Mrs Christine Wagner who has been known to us as since 1990 as a director of photography. Particularly due to her involvement in national and international productions for which we have provided technical equipment.

She is held in high esteem by all of us, not only for the above, but also for her wealth of experience, know-how and her companionable, open-minded and friendly nature.

Yours faithfully,

Uli Fischer
(Managing director)
